The CPSC Series has been Compu Pool's best selling residential system for many years. With a suite of upgrades and improvements, this chlorine power house is now even better. With advanced digital technology, the CPSC Series provides the home owner with complete control.

COMPUPOOL

Model Number	Pool Size (L) Tropical Climate	Pool Size (L) Temperate Climate
CPSC08	8,000	10,000
CPSC16	35,000	60,000
CPSC24	60,000	100,000
CPSC36	80,000	150,000

The CPSC Series DIFFERENCE

- Optimal salt level 3500 PPM
- LCD digital display and LED indicator lights
- High and low salt fault lights
- No flow sensor and fault light
- Self regulating function if salt content is too high
- Weather resistant
- Winter mode for cold water operation
- Super Chlor mode for boosting chlorine levels during peak times
- Touch pad controls that provide easy setting
- Fully automatic operation, even when the owner is away
- Easy installation into new and existing pools
- Power pack with large alloy heatsink for heat dissipation
- Reliable and durable for long lasting performance
- Digital time clock with battery back up timer as standard
- Push on individual Cell connectors for simple exchange of Cell
- UV stabilised Power Pack and Cell Housing
- Warranty: 2 years on Power Pack, 5 years pro rata on Cell

Weatherproof Power Pack

LCD Digital Display

Touch Pad Controls

Impact Resistant Cell Housing with UV Jacket

HOW DOES IT WORK?

Salt is added to the pool water at 0.35% salt content. This slightly salinated water then passes through an electrolytic cell and this produces chlorine gas, which prevents algae and purifies the pool.

THE SALT WATER CHLORINATION ADVANTAGE

- Irritation to eyes and skin is eliminated
- Unpleasant taste and odour is greatly reduced
- No more expensive and hazardous chlorine
- Fully automatic chlorination
- Sparkling clear pool water - every day
- Suitable for all pool surfaces
